

Dear Sourcerer,

Today you received this gift. It is offered as a 'Source of Inspiration' in the areas of philosophy, spirituality, science and art. The gift is facilitated by a contributor who sourced forward our initiative. Its content is known as the Cosmic Principles of 'Balance in Motion', 'Unity in Multiplicity' and 'Order in Chaos' and offers another perspective on 'reality'. It is a 'knowing' that in ancient times formed the Key Stone for both individual and societal well-being through harmonic growth. The ancient 'Source Code' can facilitate each of us on our Path of Life, our interrelated and connected Tao's. Its sharing allows for the creation of a global level playing field including all parties and factions known. The Source Code is the key of a global initiative the purpose of which is *World Peace and Abundance for All* in a harmonic relationship with our collective home, the beautiful Gaia. This gift to you is to facilitate you. You are important to us because how each of us thinks and acts has an impact on the whole. Therefore we seek your participation and would love to share experiences, insights and viewpoints.

This Planet and all that are living in, on and above it suffer because of Mankind's repetitive and unconscious behavioural patterns. Behaviour that results from a feeling of disconnectedness and a strong fear for scarcity and for the unknown. "People will do anything, no matter how absurd, to avoid facing their own Souls", said Carl Gustav Jung. By now, many of us have personally experienced that how we behave(d) and act(ed) towards ourselves and our surrounding is or was self-destructive. Nuclear, toxic and medical pollution, animal agriculture, deforestation, overfishing, oil-based fertilizers and chemical based pesticides, pelagic marine debris, intoxicating GMO's, enslavement, 'divide and conquer' wars, pre-emptive strikes and many deliberately destabilizing acts of terror and false flag operations. When is enough really enough? When will we see through the apparent chaos and disconnectedness? What is needed for Mankind to come to other understanding?

Through a better understanding of who we are and what the 'Great Invisible' is, we can increase our appreciation of and respect for the beauty and divinity of both the process and the manifestation of which we are part of. This process is known as the *Awakening of Mankind* in the uncovering *Time of the Apocalypse*. The implicit assumptions that define the box within and the glasses through which many generations were taught to observe, experience and contribute, will and have to be reconsidered to offer us an alternative perspective. Yes, it is easy to look the other way and/or deny what is going on, yet individual and collective challenges do not disappear by doing so. They grow in visibility until they can no longer be denied. We therefore need to 'reinvent' ourselves. Albert Einstein said: "We can't solve our problems with the same level of thinking we used when we created them. We must learn to see the world anew". Therefore we should facilitate connecting ourselves with the more refined realms of our consciousness where all solutions to today's challenges are available. Fortunately more and more people are looking for, working on and manifesting these solutions. What more experienced teachers than *Life Itself, Mother Nature, the ancient Sources of Wisdom* and our 'Selves' to help us remembering what was forgotten about for so long.

In servitude to the Self and the Collective that we are part of, as what we do for the part facilitates the whole and what we do for the whole facilitates the part, we facilitate through open source sharing. We hope you will spend some time studying this gift remembering the wise words of Leonardo da Vinci that "simplicity is the ultimate sophistication". Enjoy the magic that is the result of your own creative power.
